## Kyocera DuraPlus

Built-in versatility, lasting durability

RUGGED SPRINT® DIRECT CONNECT®

**Who will love it:** Mobile fleet managers, construction site foremen, off-site supervisors – the Kyocera DuraPlus is ideal for anyone who needs a rugged, hardworking device built to withstand the elements. Sprint Direct Connect delivers push-to-talk functionality, so staying in touch with individuals or your entire workforce is no problem. External contacts on the DuraPlus work seamlessly with mobile car kits to enable on-the-road charging, and a built-in speakerphone lets you talk while you charge.

**Work smarter:** When the going gets tough, the DuraPlus is certified to Military Standard 810G for resistance to dust, shock, salt fog, vibration, temperature extremes, humidity, blowing rain and even immersion. Blackouts are no match for the embedded LED flashlight with its own dedicated button, and built-in support for remote speaker mics ensures you can be heard in even the noisiest conditions.

- Exclusive web-only savings
- Easy access to your upgrade price

## NextMail Services

*Record and send streamlined messages from any Sprint phone that improve field-to-office communications.*

*Try Sprint NextMail® free for 60 days. After 60 days, service will automatically discontinue.*

NextMail® improves efficiency, productivity and safety of field-to-office communications, making it possible to quickly send recorded voice via text message from any Sprint phone. Communicating via text reduces hold times, improves safety and archives messages for future reference.

Key features include:

- *One-to-Many Communication - Recorded voice message of up to 5 minutes can be distributed to as many as 50 recipients. Messages are immediately delivered to email addresses and/or via text message notification.*
- *Intelligent Queuing™ - Dispatchers can choose from Customizable Subject Lines that allow call centers to recognize and prioritize incoming messages.*
- *Time Management and Reporting - Payroll data can be collected from mobile workers and compiled for import/export to time and attendance systems.*

Monthly charges start at

**\$7**50/mo.

## Motorola ADMIRAL™ Package

*Enjoy push-to-talk immediacy combined with smartphone versatility in the dependable hybrid that does it all.*

Who says rugged push-to-talk technology and smartphone bells and whistles are mutually exclusive? The Android™-powered Motorola Admiral™ combines them in one powerfully dependable phone that fits both bills. In just seconds, traditional push-to-talk fans can talk to coworkers or use Group Connect to chat with up to 20 people, nationwide, with the push of a button. Smartphone aficionados will feel right at home with the Admiral's ample touchscreen, camera and video and thousands of Android Market™ options. When it comes to staying in touch with style, the Admiral has its bases covered.
